

## Compaction of Big Bags on Pallets

### VT 8/12 - 2 NEG 25930

**Dimensions:** 32" X 48" **Load:** 2,200 lbs

**Features:** Mounted on a scale. Therefore an overall height of only 11.8" allowed. Very soft spring tuning in order to pass into the scale as few oscillation as possible. The edges are equipped with pallet centring in order to prevent moving of the pallet.

### VT 12/2 - 2 NEG 25930

**Dimensions:** 60" X 60" **Load:** 2,200 lbs

**Features:** Succeeded to increase the load from 1,650 to 2,200 lbs. Requested overall height: 13.7". Fine adjusting of the vibration provided by the frequency inverter as a wall-mounted unit.
