

## Compacting Big Bags on pallets transferred on a roller conveyor using explosion proof electric vibrators

### VTF/R 10/12

**Dimensions:** 48" X 48" Load: 3,400 lbs

**Features:** 1800 rpm counter rotating electric vibrators, that are rated for explosive environments, provide high amplitude for fast compaction  
Air bags position the carton and lift from the roller conveyor for compaction.
